## **RAC comments on Lower Thames Crossing proposals**

RAC head of external affairs Pete Williams said: “The Dartford Crossing has more than 100,000 crossings every day, and anyone using this stretch of road will know how congested it can become. Plans for a new crossing are therefore broadly welcome.

“While it is early in the process, it will be important to make sure that when construction begins it provides minimal disruption to existing road users in the area, in particular to those using the stretches where the route links up with the M2 at its southern end and the M25 at the northern end.”

## About the RAC

The RAC, an iconic UK brand, provides complete peace of mind to nearly 14 million UK private and business drivers, whatever their motoring needs. As well as its premium nationwide breakdown assistance service – with an expert branded patrol workforce attending more than two million breakdowns every year – it offers a wide range of market-leading products across insurance, legal services, vehicle inspections and service, maintenance and repair. Included in this is the first-of-its-kind nationwide Mobile Mechanics service which brings the garage to homes and workplaces.

At the forefront of new solutions for business fleets and consumers, the RAC's breakdown service is electric-ready with mobile EV charging technology and can be called on using [myRAC](#) – the all-in-one route planner, fuel finder and breakdown reporting app.
