## RAC responds to NICE no-idling recommendation

Commenting on news that NICE is to advocate no-idling zones, RAC roads policy spokesman Nick Lyes said:

"We welcome the principle of no-idling zones, especially outside schools, hospitals and care homes. No-one should have to suffer dirty air as a result of a driver leaving their engine on unnecessarily. Sadly, many drivers don't realise the harm they are causing by doing this.

"Schools should work closely with local authorities to first encourage parents to switch their engines off. It's right that those that then persist in leaving them on should be subject to a charge.

"While it is going to take a combination of different actions to rid our towns and cities of dirty air, introducing no-idling zones is one simple step that we can do now that can lead to cleaner air for all of us.

"Other actions, such as encouraging a smoother flow of vehicles by optimising the phasing of traffic lights and replacing speed humps with speed cushions, can also go a long way in tackling Britain's air pollution problem."

## About the RAC

The RAC, an iconic UK brand, provides complete peace of mind to nearly 14 million UK private and business drivers, whatever their motoring needs. As well as its premium nationwide breakdown assistance service – with an expert branded patrol workforce attending more than two million breakdowns every year – it offers a wide range of market-leading products across insurance, legal services, vehicle inspections and service, maintenance and repair. Included in this is the first-of-its-kind nationwide Mobile Mechanics service which brings the garage to homes and workplaces.

At the forefront of new solutions for business fleets and consumers, the RAC's breakdown service is electric-ready with mobile EV charging technology and can be called on using <a href="mayRAC">myRAC</a> – the all-in-one route planner, fuel finder and breakdown reporting app.

Visit the RAC website.
